

Helping Farmers Grow NATURALLY since 1974

Lot Number: _____

☐ Bag Contents **30 pounds (13.64 kg)**

☐ Bulk _____

INGREDIENTS

Montmorillonite

MICRONIZED NUTRA-MIN is organic in origin. It's a naturally occurring substance that was formed when ancient plant and sea life were subjected to eons of Hydra-Thermal reactions (non-volcanic). This mineral rich material is a natural colloidal clay.

**MAINTAIN CONSTANT AGITATION TO KEEP IN
SUSPENSION DURING APPLICATION**

CAUTION: HARMFUL IF SWALLOWED

Avoid contact with eyes, skin and clothing. In case of contact, immediately flush with water. Avoid further contact.
Non-toxic when spilled or leaked. Biodegradable Material

MICRONIZED NUTRA-MIN

- FOR USE WITH A STANDARD FERTILIZER PROGRAM
- **MICRONIZED NUTRA-MIN** is designed to help with better root development and plant vigor.
- **MICRONIZED NUTRA-MIN** may be of benefit during periods when plants are starved for food and water.

DIRECTIONS FOR USE

General Use

Apply 5-10 pounds per acre, 2-3 times per growing season, for each crop.

Compatibility

MICRONIZED NUTRA-MIN is compatible with most commonly used pesticides and plant nutrients on most crops. User assumes sole responsibility for non-phytotoxic compatibility with other spray crops. If in doubt, do a jar compatibility test or consult an expert in spray crop compatibility.

NOTE TO CUSTOMER

Seller makes no warranty expressed or implied, concerning the use of this product other than indicated on this label. Buyer assumes all risks of use and handling.
