LIQUID SEAWEED is a formulation for use on all food crops and turf. Use in conjunction with a balanced crop nutrient program.

Seller makes no warranty expressed or implied, concerning the use of this product other than indicated on this label. Buyer assumes all risks of use and handling.

Helping Farmers Grow NATURALLY since 1974

LIQUID SEAWEED

0.30 - 0.40 - 2.50

Available Phosphoric Acid (P205) 0.40%
Soluble Potash (K2O) 2.50%

LIQUID SEAWEED is compatible with most commonly used pesticides and plant nutrients on most crops. User assumes sole responsibility for non-phytotoxic compatibility with other spray crops. If in doubt, do a jar compatibility test or consult an expert in spray crop compatibility.

CAUTION: HARMFUL IF SWALLOWED

Avoid contact with eyes, skin and clothing. In case of contact, immediately flush with water. Avoid further contact. Non-toxic when spilled or leaked.

DIRECTIONS FOR USE

General Use
Apply 1-2 qts per acre as a foliar application to help supplement the soil applied fertility program. Apply 1-2 quarts per acre as a soil applied fertilizer. Several applications during the growing season may be necessary.

Mixing Instructions
Add LIQUID SEAWEED to the spray tank or pre-mix tank when tank is half full of water. Then, continue filling tank.

Compatibility
LIQUID SEAWEED is compatible with most commonly used pesticides and plant nutrients on most crops. User assumes sole responsibility for non-phytotoxic compatibility with other spray crops. If in doubt, do a jar compatibility test or consult an expert in spray crop compatibility.

CAUTION: HARMFUL IF SWALLOWED

Avoid contact with eyes, skin and clothing. In case of contact, immediately flush with water. Avoid further contact. Non-toxic when spilled or leaked.
