  Derived from cane molasses, fish solubles, seaweed extract, and montmorillonite

ALSO CONTAINS NONPLANT FOOD INGREDIENT
1% Saponin derived from yucca schidigera

DIRECTIONS FOR USE

General Use
Apply 1-2 qts per acre as a foliar application to help supplement the soil applied fertility program. Several applications during the growing season may be necessary.

Mixing Instructions
Add METAZYME to the spray tank or pre-mix tank when tank is half full of water. Then, continue filling tank.

Compatibility
METAZYME is compatible with most commonly used pesticides and plant nutrients on most crops. User assumes sole responsibility for non-phytotoxic compatibility with other spray crops. If in doubt, do a jar compatibility test or consult an expert in spray crop compatibility.

CAUTION: HARMFUL IF SWALLOWED
Avoid contact with eyes, skin and clothing. In case of contact, immediately flush with water. Avoid further contact. Non-toxic when spilled or leaked. Biodegradable Material

METAZYME
0.45 - 0.25 - 1.8
METAZYME is a formulation of essential plant nutrients, designed to aid the plant during periods of active growth.
