GUARANTEED ANALYSIS

Total Nitrogen (N) 0.40%
  Water Soluble Organic Nitrogen 0.24%
  Water Insoluble Nitrogen 0.16%
Available Phosphoric Acid (P205) 0.10%
Soluble Potash (K2O) 4.00%
  Derived from seaweed extract, cane molasses, and montmorillonite

ALSO CONTAINS NONPLANT FOOD INGREDIENT
1% Saponin derived from yucca schidigera

DIRECTIONS FOR USE

General Use
Apply 1-2 qts per acre as a foliar application to help supplement the soil applied fertility program. Apply 2 qts to 1 gallon as a soil application. Several applications during the growing season may be necessary.

Mixing Instructions
Add NUTRA-MIX II to the spray tank or pre-mix tank when tank is half full of water. Then, continue filling tank.

Compatibility
NUTRA-MIX II is compatible with most commonly used pesticides and plant nutrients on most crops. User assumes sole responsibility for non-phytotoxic compatibility with other spray crops. If in doubt, do a jar compatibility test or consult an expert in spray crop compatibility.

CAUTION: HARMFUL IF SWALLOWED

Avoid contact with eyes, skin and clothing. In case of contact, immediately flush with water. Avoid further contact. Non-toxic when spilled or leaked.

Biodegradable Material

NET WEIGHT
