

NUTRA-GEN 0-6-12

0-6-12

Guaranteed Analysis

Total Nitrogen (N).....0.0%

Available Phosphate

(P_2O_5).....6.0%

Soluble Potash(K_2O)....12.0%

Derived from phosphoric acid
and potassium acetate
ALSO CONTAINS NON-PLANT
FOOD INGREDIENTS

3% fermentation solution
derived from plant extracts
and soybean meal

Guaranteed by:

Net Volume
2.5 gallons
Bulk
10.2 lbs per gallon @ 68°F

GENERAL INFORMATION: NUTRA-GEN 0-6-12 provides Phosphorus and Potassium in a readily available form for multi-application fertigation programs. This product contains high analysis, white Orthophosphoric acid to encourage root growth and acetate anion metabolizes naturally, to promote the rapid uptake of potassium. This product is intended for use as a fertigation and soil applied material, having a low salt index allows for safe applications. This product should be used to supplement to a fertility program. Always monitor crop nutrient needs and responses with a soil, leaf tissue and irrigation water analysis program.

SUGESSTED USE

Application

This material may be fertigation applied via drip, micro-sprinklers, flood, and furrow. For best results apply via drop or micro-sprinklers where material will be concentrated at or near the root zone.

Compatibility - This product has a strongly acidic pH and is compatible with many commonly applied nutrients and crop protection products. Jar test for compatibility prior to mixing with any pesticides, fertilizers or fertilizer blends. For unfamiliar mixes, an appropriate amount of the final mix should be applied to a small area of the intended crop to ensure plant compatibility prior to the planned application. User assumes full responsibility to ensure product, equipment and plant compatibilities. **Mixing** - Shake, stir, or swirl contents before using. **Applications** - can be applied by ground equipment and through irrigation systems. Recommended soil applications include banding and broadcast. Recommended fertigation methods include water run, sprinkler and drip irrigation. When using high rates avoid direct contact with living plant material or ensure an adequate volume of water to dilute.

HAZARD STATEMENT

Danger - Causes respiratory, skin, and eye irritation.

PRECAUTION STATEMENT Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Response IF ON SKIN (or hair): Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment, see supplemental first aid information. IF skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
